

VP2 (Canine parvovirus)

Cat No. : 01-14-0001

Product Name : VP2 (Canine parvovirus)

Type : Protein

Property : Purified recombinant protein

Origin :

Source : E.coli

Application : WB standard, Ab ELISA, immunogen, etc.

Formulation : Each vial contains 100 ug purified protein(1mg/ml) in PBS(pH7.4).

Purity : >95%

Storage : Store at -80°C, Avoid freeze / thaw cycle.

Limitation : For research use only, not for use in diagnostic procedures.

Note :
